CVWO Mid-Assignment Submission

Wang Xinman

31 December 2018

1 Use Cases

User Action	Details
Creates and saves tasks	Page redirects to list of tasks
Reads tasks	List of task names shown in index with link_to show
Updates tasks	link_to show directly brings user to page with textbox to edit
Deletes tasks	link_to show redirects to page with delete option
Views tags	All tags of every task is displayed on index
Selects tags	Every tag is a link_to a list of tasks with the specified tag

2 Execution Plan

CRUD   Similar to /blog

Tagging   Similar to comments in for articles in /blog, where each tag (in the form of a symbol :[tag name]) belongs_to task, and each task has_many :tags
